Remember to check out our [Gear Recommendations](#) blog post for links to many of the items on this packing list!

Just as important as what your child packs, we also want to specifically address items your child *should not* bring with them to their Apogee experience. **Please do not pack the following:**

- ❑ **Smart watches, Kindles, video games, or other electronic devices.** A cell phone is permitted for students traveling to the trip start by airplane, bus, or train but must be handed over to leaders upon arrival. If a student brings a cell phone, Apogee is not responsible for its damage or loss under any circumstances. *See our “Electronics and Personal Property Policy” document for more information.*
- ❑ **Bulky cotton items like sweatpants or denim clothing such as jeans.** They are heavy, take a long time to dry when wet, and can be dangerous in cold weather. Synthetic clothing is much more practical. In cold, wet conditions it will keep you dry and warm.
- ❑ **Knives or multi-tools of any kind.**
- ❑ **More than is suggested on the packing list.** Through years of experience, we feel confident that we recommend sufficient gear and clothing while minimizing unnecessary items.

2024 Cape Cod & the Islands

Packing Instructions

Packing Instructions:

1. Please label everything with your child's name
2. Please pack your child's belongings into a large, soft-sided duffel (please do not use a hard-bottom, rolling duffel). At the trip start, our leaders will help your child transfer their gear into their panniers (Apogee will supply any rental panniers at this time), and the duffel will be returned at the end of the trip. If you are curious about what the bike-packing process looks like at the trip start, check out our [bike-packing video](#).
3. All of our bike trips are self-supported, which means that students and their leaders will carry their clothing, cooking gear, tents, etc. on their bikes. For this reason, please stick to the equipment list and do not overpack. Again, leaders will thoroughly explain how to properly pack panniers at the start of the trip.
4. **If your child is flying:**
 - Please pack a drawstring bag or sturdy plastic bag with their bike helmet, a change of clothes, any important medication, and a water bottle. This bag will act as their primary carry-on item on the plane.
 - Students should carry-on their sleeping bag (as a personal item). We ask this so that your child has something to sleep in if their bag does not arrive on time. *Optional:* If you'd also like to carry on your sleeping pad, you can tape your sleeping pad and bag together (so that they only count as one carry-on item).
 - Everything else should be in the duffel and the duffel should be checked.
